

Press Release:

From: The President of the Wyoming Kentwood Chamber of commerce

Date: Monday August 13, 2007

The Wyoming Kentwood Chamber of Commerce has endorsed the Michigan FairTax proposal in concept. “We are waiting to see the final ballot language and the implementing legislation, however we believe that the Michigan FairTax proposal would provide our state with the most competitive taxation system in the nation”, said restaurant owner and current President of the Wyoming Kentwood Chamber Tommy Brann.

He went on to say, “The MBT plan passed by the legislature is not enough and simply shifted who pays the business taxes, but will not bring any new business to Michigan. Michigan needs real tax reform not political solutions and smoke and mirrors.”

This endorsement is for the unemployed who are giving up on Michigan as a place for businesses to create jobs. This endorsement is for a dramatic change that is needed in this state for the good of all Michigan citizens. – Tommy Brann
